There has been AN ENORMOUS volume of mail on these subjects coming out of the NAP, compriv, mae-east, net99, nap-ra,small provider mailing lists in the last 2 weeks.

I have created 2 new SHARED Folders on the Email system, one is called CIX, the other is called nap-mae.

"nap-mae" has stuff on the mae east expansion that you've probly seen, along with some additional discourse by louie and vadim and marty that you may not have.

"cix" has most all the warfare of late.

Unless the volume of mail drops significantly, I will delete mail in these folders at the end of each month.so they don't get too humungous.

Have fun.
